

Value Proposition

-  **Extend shelf-life**
-  **Removal of chemicals**
-  **More efficient production**
-  **Improve customer experience and product satisfaction**
-  **WBE Provider of Basic Ingredients and Processing Aids**

About

Founded in 1993, [ezbake technologies](#) helps solve the baking industry's challenges of shelf life extension, removal of harmful chemicals, and improving production efficiencies. We improve the texture, quality and shelf life of your products, increasing customer satisfaction.

As a certified WBE we are also proud that 75% of our leadership team are women.

In our nearly 25 year history, [ezbake technologies](#) provided quality products to customers such as Wegmans, Frito Lay, Daylight Donuts, and HEB. We can scale quickly to meet your purchasing needs by using contract blending facilities. Our BRC Certified blending facilities meet the highest industry standards for food safety. [Ezbake technologies](#) continues to provide innovative ingredients to the baking and snack industry.
